TOWN WARRANT

The State of New Hampshire

THE POLLS WILL BE OPEN FROM 9:00 A.M. to 7:00 P.M.

To the Inhabitants of the Town of Loudon in the County of Merrimack in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Loudon on Tuesday, the 12th day of March, next at 9:00 of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

Article No. 2 through Article No. 18, will be taken up at the second session of the Annual Town Meeting on Saturday, March 16, 1985 at 9:00 A.M. Meeting to be held at the Country Hall, Mudgett Hill Road.

Article No. 3: To see if the Town will vote to allow a 2% discount on all property taxes paid within thirty days after presentation of the tax bill.

Article No. 4: To see if the Town will vote to authorize the Selectmen and the Town Treasurer to borrow a sum or sums of money not to exceed in the aggregate more than 75% of the anticipated amount to be collected in taxes for the current municipal year and to issue in the name of and on the credit of the Town of Loudon negotiable notes therefore, said notes to be paid in 1985 from taxes collected during the current year.

Article No. 5: To see if the Town will vote to raise and appropriate the sum of \$5,000.00 for the Capital Reserve Fund of the Police Department as established at the 1982 Town Meeting.

Article No. 6: To see if the Town will vote to raise and appropriate the sum of \$15,000.00, for the Fire Department Capital Reserve Fund as established at the 1963 Town Meeting.

Article No. 7: To see if the Town will vote to raise and appropriate the sum of \$15,000.00, for the Highway Department Capital Reserve Fund as established at the 1959 Town Meeting.

Article No. 8: To see if the Town will authorize the Selectmen to purchase a Grader for the Highway Department for a sum not to exceed \$75,500.00. Funds to come from Capital Reserve \$70,000.00 and Revenue Sharing \$5,500.00.

Article No. 9: To see if the Town will vote to allow the Expanded Elderly Exemption pursuant to RSA 72:43-a. By Petition to be on ballot of March 12, 1985.

Article No. 10: To see if the Town will vote to: A. Join the Concord Regional Waste/Resource Recovery Cooperative (the Cooperative), said Cooperative being duly authorized by RSA Chapter 53-A entitled "Agreement between Government Units"; B. Adopt the "Agreement for Formation of Concord Regional Solid Waste/Resource Recovery Cooperative", a copy of which is attached to the Warrant (The Cooperative Agreement); C. for the term of the Cooperative Agreement to perform all obligations which may from time to time be required of the Town pursuant to the terms of the Cooperative Agreement. D. authorize the Board of Selectmen to execute and deliver the Cooperative Agreement (including the completion of the Town's Initial Guaranteed Minimum Quantity on Exhibit A thereto) and such other instruments, agreements, and documents, and to take all such other actions, as the Board of Selectmen may deem necessary or desirable in furtherance of the purposes set forth in the Cooperative Agreement (including, but not limited to, appointing a member to the Cooperative's Provisional Board and Joint Board from time to time); and E. to take action relative thereto.

Article No. 11. To see if the Town will vote to authorize the Selectmen to enter into an agreement with the Pittsfield Solid Waste Facility, for the disposal of Household Waste, under RSA 53:A. and to operate within the Landfill Budget Line 27, of the Budget of the Town.

Article No. 12: To see if the Town will vote to authorize the withdrawal from Revenue Sharing Funds, established under provisions, of the State and Local Assistance Act as of 1972, for use as set off against budgeted appropriations for the following priority purposes and in the amount indicated;

#1. To be applied towards the purchase of a Grader for the Highway Dept	\$ 5,500.00
#2. To be applied to the Recreation Committee for consulting Fees.....	1,200.00
#3. To be used to install 410' of Chain Link Fence around the Legion property fence to be 5' in height	2,652.00
#4. To be used to purchase a Computer and Software...	10,000.00
#5. To be applied against the Highway Department Budget	9,112.00
Total funds to be used.....	\$28,464.00

Article No. 13: To see if the Town will vote to establish a Recreation Capital Reserve Fund, as outlined in RSA 35:1 of the New Hampshire Revised Statutes Annotated and appropriate the sum of \$5,000.00 to be used for Recreation Purposes.

Article No. 14: To see if the Town will vote to establish a Capital Reserve Fund for the Reappraisal of Property in the Town should it be ordered by the Tax and Land Appeals Board. Amount to be appropriated \$25,000.00 pursuant to RSA 35:1.

Article No. 15: To see if the Town will vote to authorize the Selectmen to apply for, accept and expend, without further action by the Town Meeting money from State Federal or other governmental unit or private source which becomes available during the fiscal year RSA 31:95=b.

Article No. 16: To see if the Town will vote to authorize the Selectmen to dispose of land acquired by Tax Deed from the Tax Collector.

Article No. 17: To see if the Town will vote to close a portion of Hollow Route Road, so called, between Clough Pond Road, and New Route 106, located on Map 49 lots 51 & 53, being the property of Lovering Hayward and the State of New Hampshire.

Article No. 18: To see if the Town will vote to close, subject to Gates and Bars, a portion of the Range Road, from the William Silver residence on Old Shaker Road, northerly, to the intersection of Berry Road.

Article No. 19: To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 14th day of February, in the year of our Lord nineteen hundred and eighty-five.

ROGER A. MAXFIELD, Chairman
MELVIN G. GULLAGE
RAYMOND C. CUMMINGS
Selectmen of Loudon

SELECTMEN'S REPORT

Loudon continues to grow. Since 1950, our population has increased from 1,012 to 3,039 at the present. Along with this growth, the business of managing the Town has become much more complex.

Through good management practices, new building construction, and twice per year property tax billings, our property taxes were reduced approximately 9% during the past year. The "twice" per year property tax billing which was initiated last year has proven to be extremely beneficial. For example, the Town saved a minimum of \$28,000 normally paid in interest on borrowed money, plus earned in excess of \$10,000 on certificates of deposit. This action generated over \$38,000 for the Town. We **appreciate** your understanding and cooperation with the "twice" per year billings.

We anticipate that during 1985, the Town Clerk's office will be moved to the town garage complex to join the Selectmen and Tax Collector. This will place all Town offices under one convenient roof.

At the Planning Board's request, the Town has contracted the Lakes Region Planning Commission to reevaluate and update our Town Master Plan. Also, the Commission will prepare a draft Zoning Ordinance. This comprehensive Master Plan and Zoning draft will be available for your review around September 1, 1985.

As you know, the Town put the Symonds Property house, barn, and .8 acre lot up for bid, with a minimum price of \$29,000. We received no bids, and therefore continue to own the property. The Selectmen now feel that the property should be kept by the Town for future Town use, especially as an alternate right-of-way to the Symonds Recreational facility. We welcome all suggestions and recommendations for the use of the Symonds house lot.

We appreciate the work of our Voluntary Fire Department and Rescue Squad, all Town Departments, Boards, Commissions, and civic contributions of our Town residents. Our street sign project which has been in progress for the past two years is nearly complete. Thanks to the many hours of voluntary work by Mr. Arthur Colby, Loudon now has the best marked roads of any town in our area.

ROGER A. MAXFIELD, Chairman

HIGHWAY DEPARTMENT REPORT

The Highway Department had a busy year in 1984 with two Highway Block Grant projects to complete along with our regular road maintenance.

The first project to be completed was the finishing of the hill on Staniels Road that was started in 1983. This consisted of loaming and seeding the slopes, putting on a finish coat of crushed gravel, which was followed by a three inch "Farmers Mix", and then sealed. This greatly improved a section of road that was always in need of grading and other care.

The second Block Grant project was the completion of Lovejoy Road from the intersection of Oak Hill Road to the intersection of Batchelder Road a distance of 4600 feet. This consisted of installing culverts, hauling in approximately 5000 yards of gravel and 2000 yards of crushed gravel. This was then compacted and a three inch "Farmers Mix" applied and sealed. This completed project should prove to be of great value to the town in saving both time and money that was constantly spent in trying to maintain this section of road.

Our regular maintenance was set way behind this spring by a major breakdown in the rear end of the grader. This is the fourth time that this problem has occurred since the grader was purchased. This time it was complicated due to the lack of parts that were available. We had to have some of the parts made at a machine shop because the manufacturer of the grader has stopped making both the machine and parts to repair them.

Due to the frequency and expense of this problem I feel that it would be in the best interest of the town to replace this piece of equipment with a new more reliable machine this year. The Selectmen concur with this recommendation.

The new one ton truck that was purchased last year has proven to be extremely useful, and I feel it was money well spent.

I would once again like to thank Art Colby who volunteered his time to work with me in ordering and erecting more street signs.

In keeping with our regular maintenance, we added approximately 5000 yards of crushed gravel to our dirt roads, and shimmed and sealed another four miles of tar roads.

Any one with a question or problem regarding their road should feel free to call the Highway Department at 783-4568.

KEVIN S. GULLAGE
Road Agent

LANDFILL REPORT

The present refuse pit should be filled early this summer and a new one will be made this spring. It is through the cooperation of the residents sorting their large items such as furniture, wood, large metal objects and tires that make these pits last their expected life.

During the last year we have been studying alternate ways of disposing of our refuse. One of which would be to go into a cooperative regional incinerator with other towns and cities in the Concord area. A second possibility would be to join with the Pittsfield area incinerator, that is now in operation. The Selectmen are currently studying these proposals and should have comments by Town Meeting.

Once again this year I would like to thank everyone for their cooperation in making our present location work so smoothly.

The hours of the Landfill operation are as follows:

Winter Hours

December 1st to April 1st
Tuesday 9 AM to 5 PM
Saturday 8 AM to 5 PM

Summer Hours

April 1st to December 1st
Tuesday 9 AM to 6 PM
Saturday 8 AM to 6 PM

KEVIN S. GULLAGE
Road Agent

POLICE DEPARTMENT REPORT

The Loudon Police Department consists of the Police Chief, two full time officers as well as four special officers. Our second full time officer has proven to be very effective and has enabled us to provide seven day, twenty-four hour protection..

The restrictions on alcohol and animal control at the public beach at Clough Pond have indeed made the beach area a more desirable place for the residents of Loudon.

In September of 1984, for a period of four months, the Town of Loudon was awarded a grant for the state for extended highway patrol and after the activities that were encountered, I am sure has aided in making our roads in Loudon a more safe place to drive.

The major increase in our budget is our dispatch service. A study was done with several Police Chiefs in the dispatch service and was determined that with the added payroll plus the added number of calls this year that the increase is justified. It goes without saying that it is still a must that we have full time dispatch service. In 1982 there were 5,521 calls, 1983 there were 7,278 calls, 1984 there were 7,308 calls and in 1985 it is estimated that there will be over 8,000 calls for the Town of Loudon.

In the past year our department has investigated 930 cases and has made 962 motor vehicle stops.

I would like to take this opportunity to express my appreciation to the Fire Department, Town and State Road Crews, Selectmen, State and Sheriff's Department for their unwavering assistance. Without their dedication and understanding we could not serve you as efficiently and completely.

Please remember we are your Police Department and here twenty-four hours a day to serve you. If you believe a crime has been or is about to be committed, call the Loudon Police Department at 228-1631. If you see a crime being committed call us immediately stating all information clearly. We depend on and appreciate your cooperation. We will once again in the coming year strive to serve you with the professionalism and integrity you deserve.

Respectfully,

ROBERT N. FISKE
Chief of Police

LOUDON MUNICIPAL COURT

Although the Loudon Municipal Court, is now under the unified court system. It is felt the citizens should be kept informed of the proceedings.

There was a total of 1045 cases heard in 1984;

Violations	779
D.W.I.#1	39
D.W.I. #2	7
Agravatted D.W.I.....	1
Miscellaneous	27
Misdemeanors	113
Felonies	7
Landlord and Tenant.....	1
Small Claims	71

Respectfully submitted:

EDWARD H. FREKEY
Clerk

LOUDON VOLUNTEER FIRE DEPARTMENT

The Loudon Fire Department including its Medical Squad continues to function as a volunteer group of dedicated townspeople helping their neighbors. This system has worked adequately over the years although it is becoming increasingly more difficult to provide coverage, especially during normal workday periods. We are always looking for volunteers to join us who are willing to donate their time at emergencies and to attain required training levels.

With the approval of town funds at the 1984 Town Meeting and matching New Hampshire Highway Safety funds, we were able to purchase auto extrication equipment commonly referred to as "jaws" and three air bags. This equipment has already been used in town three times to successfully remove occupants trapped in motor vehicle accidents.

At the request of the Selectmen, the Fire Department burned the old Buzzell house and garage to clear the property. This allowed us an excellent opportunity to provide "live burn" training for our members. The property was used for over a week to train on ventilation methods, breathing apparatus, pump operation, adjacent exposure protection, and interior attack methods.

We wish to thank all town departments for their excellent cooperation during the year and the Fire Department Ladies Auxiliary for continuing support.

All townspeople are urged to practice home fire prevention methods including constant checking of chimney conditions. Everyone should have smoke detectors. If you have a fire or medical emergency, immediately call 225-3355 and provide all information asked for by the dispatcher. Phone stickers are available from the Fire Department.

Emergency calls handled by the Loudon Fire Department totalled 185 as outline below. This reflects a 24% increase over the previous year.

Structure Fires	6	Brush/Grass	9
Car Fires	8	Wires Down	5
Chimney Fires	20	Dump	3
Auto Accidents.....	21	Gas Wash	2
Mutual Aid	26	Service Calls.....	8
Medical	60	Other	11
Smoke Invest.....	6		

REPORT OF THE PLANNING BOARD

Under the control of the growth management ordinances enacted in recent years, increase of Loudon's residential base continued at a steady but acceptable rate. Forty-five (45) building permits were issued for new homes (5% of the 900 homes in town as authorized by vote of last year's Town Meeting) and five (5) permits for additions to existing homes. These applications were made at a fairly uniform rate throughout the year and it appeared that no one who desired a permit was forced to wait. However, at the beginning of 1985 there has been a flood of applications and at this writing indications are that the forty-seven (47) permits authorized for this year will be expended before summer.

During 1984 fifteen (15) subdivision applications were approved, creating forty-seven (47) new lots; a level of activity consistent with the past several years.

Operation under the "Emergency Temporary Zoning and Planning Ordinances" adopted in 1984 has been routine and has not created any problems for anyone involved; the major change being that of Business Permits issued through the newly-created Zoning Board of Adjustment since the Town is zoned as a single residential district.

The Planning Board and the Board of Selectmen have entered into an agreement with the non-profit Lakes Region Planning Commission in Meredith, N.H. for professional and clerical assistance in the preparation of our own permanent Zoning Ordinance. This Commission has fulfilled a similar role for eighteen (18) Towns in their region during the past several years with highly acceptable results. Generation of the Zoning Ordinance will be preceded by an update of our Master Plan, bringing it into compliance with new State Statutes and making it more compatible with recent Supreme Court decisions handed down in cases involving challenges to local ordinances. Important issues which must be addressed in our new regulation are those concerning multiple-family dwelling units and mobile homes as well as general growth management in the Town. A questionnaire is included with your copy of the 1984 Town Report. Please take a few minutes to give us your opinion on these matters which will affect all of us in upcoming years.

As work on these documents progresses, public hearings will be scheduled for further exchange of views. These will probably begin early in the fall, cuminating in a vote on the zoning package in the spring of 1986.

MAXFIELD PUBLIC LIBRARY TRUSTEES REPORT

The Maxfield Public Library Trustees would like to express our sincere appreciation for the gifts of books, magazines and services donated to the Library during this past year. Specifically, we thank Mr. Robert Haines for the donation of his services in the design and building of two bookcases; to Mr. Laryy LeBrun for the donation of his time and services in rebuilding the Library's chimney; to Mrs. Nancy Hendy for her volunteer services; and finally to Mrs. Muriel Ingraham, our librarian, for her donation of time and services beyond her regular work hours.

The Vision/Hearing Program of the N.H. Division of Public Health made use of the Library facilities along with the Supervisors of the Checklist.

With the help of Revenue Sharing funds, added to the regular Library funds, we were able to purchase a typewriter, bookcase, set of encyclopedias, and other needed reference materials.

Maintenance to the Library this past year included the rebuilding of the top section of the chimney, installation of a new light in the children's section, and designation of a handicapped parking space.

Surveys completed by Town residents provided the Trustees with helpful information for future planning. We thank everyone who took time to complete this survey.

The 244 volumes purchased included a 22 volume encyclopedia, in addition to other reference works, biographies, fiction and non-fiction. The objectives for 1985 are: to continue to add to the above selection, and to make a modest beginning in the literature area; to have a copy machine available; to try to provide some kind of home delivery for the shut-ins.

The Maxfield Library is open twenty hours a week ; Monday, 1 - 9; Wednesday, 1 - 9; Friday, 1 - 5. The library is closed on holidays.

Respectfully submitted,

MURIEL P. INGRAHAM
Librarian

CONCORD REGIONAL VISITING NURSE ASSOCIATION

The Concord Regional Visiting Nurse Association, Inc. continued to service Loudon for this past year. In the Home Care Program, service is provided under a physician's plan of treatment to patients who are essentially homebound with diagnosed illness. This service is rendered by health professionals (Registered Nurses, Physical Therapist, Occupational Therapist, Nutritionist) and paraprofessionals, (Homemaker/Home Health Aides, Home Assistants) according to the patient's and family's needs. Hospice care is provided to patients in the last six months of a terminal illness. The Health Promotion Program has services (child health, family planning, screening) that are provided to low income/high risk patients and families in group settings, such as clinic and screening sites.

Health Education and Instruction is part of each home visit or clinic visit.

Anyone in Loudon may request service; patient, doctor, health facility, pastor, friend or neighbor. Patients are also referred by other agencies. All requests are answered, but continuing home care can be provided only with a physician's orders.

A call to the Concord Regional Visiting Nurse Association, Inc., (224-4093) between the hours of 8 a.m. and 9 p.m., seven days a week is all that is necessary to start services or make inquiries. Hospice staff are on call (224-4093) 9 p.m. to 8 a.m.

Federal regulations specify a charge is applicable to all visits. Fees are scaled for those unable to pay the charge if that person has no other funding source available. However, for fee scaling, federal regulations require a financial statement be completed and a fee appropriate for which the patient will be responsible. Town monies subsidize those visits that are scaled or that no fee is collectible.

This Agency is accredited by National League for Nursing and American Public Health Association Certified for Medicare and is a member agency of Home Care Association of New Hampshire, United Way of Merrimack County, and National Association for Home Care.

Visits made during the year beginning October 1, 1983 to September 30, 1984 were:

	<u>No. of Clients</u>	<u>Visits</u>
Home Care	23	432
Health Promotion	60	123

December 1, 1984

NEW HAMPSHIRE HUMANE SOCIETY

The 1984 totals of the number of animals from the Town of Loudon brought to the New Hampshire Humane Society shelter are as follows:

By the Animal Control Officer:

Dogs and Puppies	28
Cats and Kittens	1
Total	29

From Loudon Residents:

Dogs and Puppies	8
Cats and Kittens	14
Total	22

Total Number of Dogs, Pups,

Cats, Kittens from the Town	51
-----------------------------------	----

We are enclosing a copy of the report on all towns that used the shelter facilities and services in 1984. Your Society's shelter has been inspected and licensed by the State and fulfills your licensed dog pound requirements. It also complies with RSA:442 A, the Rabies Control Act for holding stray dogs.

Every town has stray and animal problems. We encourage the Town of Loudon, especially the Animal Control Officer, to use our services more in 1985.

Sincerely,

FRITZ T. SABBOW
Executive Director

LOUDON RECREATION COMMITTEE and SUMMER RECREATION PROGRAM

The Loudon Recreation Committee received a real shot in the arm this year by the addition of six new members to a committee that formally consisted of two people.

The Committee has been very active this past year having held over nine meetings; most of the meetings have concentrated on the developing of preliminary proposals for the recreational improvement of the Symonds Property. At this writing the committee is now awaiting the completion of a topographical survey map being done voluntarily by a local land surveyor before beginning the drafting of site plan proposals for the Symonds Property. Input has been received from the selectmen, the town conservation committee, and the Babe Ruth and Soccer Leagues.

If funding can be found to secure the services of a local park planner, the committee hopes that it can have preliminary site plans available for review of the public late this spring. Input is welcome from any citizen and interested persons may contact any of the members of the recreation committee to share their views on recreational planning. The committee will keep the citizens posted as it continues with its planning for the Symonds Property.

The Loudon Summer Recreation Program completed its sixth year of operation with its usual strong summer attendance.

Upwards of 50 to 60 children regularly attended the daily recreation program conducted at the Loudon Elementary School grounds. Daily activities included an arts and crafts program, sports activities and tournaments, games and the daily "special event".

Besides the morning program for younger children second through sixth grades; the afternoon program for youths sixth grade and up continued to prove popular. The older children actively participated in hiking and swimming trips, Pepsi Hot Shot Basketball and Jokari Tournaments, Bike Rodeos and the popular bus outings.

This year's three bus trips for families and/or their children were to Ellacoya and Bear Brook State Parks as well as Wallis Sands State Beach for a day of ocean swimming and picnicking. Special thanks is extended to the N.H. State Parks System for continuing to extend complimentary use to our Summer Recreation Program.

Mr. Brian Bendiks continued to serve as the town's Summer Recreation

Director for the sixth year. Mr. Bendiks after six years as the Town Summer Recreation Director will be unable to return this summer. The Committee cannot express enough the deep indebtedness that it feels for the outstanding program and dedicated leadership that Brian displayed while serving as our town's first and only summer Recreation Director. He will be missed by the committee and more so by the children of our community.

The program continues to benefit from the donations of games and volunteer help by many members of our community. Donations and volunteer help are gratefully accepted and any persons' wishing to donate items or volunteer to chaperone or aid the Summer Recreation program may do so by contacting the selectmen or a member of the recreation committee. The committee also wishes to acknowledge the continued support of the summer program by the Selectmen.

Respectfully submitted by members
of the Loudon Recreation Committee

**FINAL REPORT OF THE
LOUDON SCHOOL STUDY COMMITTEE
JANUARY, 1985**

Over twenty years ago, School Board members from the communities of Boscawen, Loudon, Penacook, Salisbury and Webster met for the purpose of exploring the possibility that a Cooperative School District might be established to enhance the educational opportunities of the students in those districts. Long hours of research, obtaining statistics, developing suitable curricula, planning, and selecting possible school sites were involved. The dedication of all those School Board members was gratefully acknowledged by townspeople in their respective communities as the Merrimack Valley Regional School District was made a reality.

Loudon parents have appreciated the opportunity presented to have their children attend a high school and become part of a student body within their own district. Prior to the inception of the Merrimack Valley School District, Loudon had offered an eighth grade education to all its children at the school which now houses grades one through four in the village. After the eighth grade, additional education was provided by tuition coverage to surrounding high schools, with transportation furnished by the individual families.

Our School Board and Loudon residents assisting in committee work, had the foresight twenty years ago to determine that a change was necessary in order to update standards and meet the educational needs of the growing population in Loudon.

Concern has again been expressed by families and taxpayers in Loudon about similar issues that were addressed twenty years ago: educational needs of its students, projected increased costs to provide quality education, and the expanding population in Loudon. Additional factors brought to the attention of the current Loudon School Study Committee included the time and cost involved in transporting pupils and a perception of loss of community involvement in its present school system.

Because of these concerns expressed by members of the Loudon community, and by vote of the townspeople at Town Meeting in 1984, the Selectmen appointed a committee to explore the feasibility of Loudon supporting its own school system and the potential impact on the tax structure.

At the present time there is also a Building Needs Committee in the Merrimack Valley School District identifying projected needs of the entire School District to repair and remodel existing buildings, and that Committee is analyzing what the fiscal impact on the entire District might be. It is our

Committee's understanding that they will provide the voters with a report at the Annual School District Meeting in 1985.

The Loudon School Study Committee has held meetings twice a month since April, 1984, in an effort to provide the townspeople with sufficient data that would permit the availability of clearly defined options for their consideration.

This Committee would like to express its gratitude to our current School Board members, Raymond Cummings and David Larrabee, to Superintendent of Schools, William Baston, to the Merrimack Valley Building Needs Committee, and to Jonathon Russell, Principal at Merrimack Valley High School and his staff for their assistance in obtaining statistical information that enabled the Loudon Committee to perform its charge, and to Sub-Committee members for their valuable input.

Additional information has been obtained from the Department of Education, newspaper items, Rankings of the States, 1984, published by the National Education Association, school district reports, and from meetings attended by our committee members with the Merrimack Valley High School Liaison Committee and Building Needs Committee.

It is the consensus of the Loudon School Study Committee, in completing this report, that its responsibility to explore the feasibility of Loudon supporting its own school district and reporting back to the voters, has been met. This report is herewith submitted to the Selectmen, Town of Loudon, and the Committee is dissolved.

Should the townspeople wish to pursue the issue further, it is this Committee's suggestion that a new Committee be appointed to enlarge upon and continue the work begun.

DAVID LITTLE
VINCENT MARABELLA
Loudon School Study Committee

Concerns, Recommendations and Building Needs Projections

1. **Community Spirit.** This is an intangible item that can only be addressed in a hypothetical manner. Committee members have reviewed reports in the recent newspaper articles that state the cooperative districts established in the 1960's do not appear to offer the same type of community spirit that is an integral part of communities maintaining their own school system and in which there appears to be more extensive parental involvement.

In response to related concerns expressed by Loudon residents, it is the opinion of this Committee that, at this point in the Cooperative's history, Loudon is not experiencing the full benefits of the cooperative system, socially or in facility usage, compared to other cooperatives in New Hampshire whose areas and people are more closely knit.

Perhaps with the initiation by the District this year of a Liaison Committee, comprised of representatives from each community who meet on a monthly basis with administrators and teachers, discussion of individual community problems and concerns relating to the School District may impact and augment the cooperative endeavor and promote increased community involvement.

2. **Utilization of School Facilities.** School facilities are open to public gatherings for school related functions. Appropriate written requests by an organization should be submitted well in advance of any planned meeting, as classrooms for Adult Education courses and meeting rooms are scheduled on a first come basis.

However, Loudon residents have expressed the opinion that the time and distance involved in traveling to Penacook makes the utilization of school facilities on a regular basis prohibitive.

3. **Extra Curricula Activities.** In the past, regulations pertaining to the late bus traveling to communities appeared to be relatively stringent and adversely affected those students who had been interested in participating in after school activities. Lack of sufficient numbers of students taking the late bus resulted in its cancellation. Insufficient time had also apparently been allotted to cover the transition from participation in activities and interception of the late bus.

We have been informed that both these negative factors have been

relaxed and maximum accommodation has been given to students from all communities, enabling extended participation in extra curricula activities at Merrimack Valley High School.

4. **Attrition Rate of Loudon Students.** A diagonal survey of Loudon students attending the 9th grade and those subsequently graduating in the 12th grade, 1978-1983, indicates a high percentage (over 25%) of these students leave Merrimack Valley High School prior to graduation.

In discussing the situation with Superintendent Baston and Jonathon Russell, as well as Guidance Counselor Benton Smith; and comparing attrition rates for all high schools in New Hampshire and nationwide; the following facts were made apparent:

- a. U.S. and New Hampshire statistics indicate an overall 25% attrition rate of high school students prior to graduation. This has been of concern to all educators and is currently being addressed throughout the country.
- b. At Merrimack Valley High School, this group of students includes those who do, in fact, drop out of school in order to enter the employment market as they reach 16 years of age. However, the statistics also reflect those who families move to other communities and those who withdraw to attend private/religious high schools.

RECOMMENDATION: That there be an increase by at least one faculty person to assist the Merrimack Valley High School Guidance Counselor in offering assistance and alternatives to those students who intend to drop out of high school for the sole purpose of entering the work market.

5. **Post-Secondary Education.** Approximately one-fourth of Loudon's graduates continue their education at a post-secondary level. This includes those who attend four-year colleges and one or two year vocational programs.

RECOMMENDATION: That to meet the overall percentage (45%) of Merrimack Valley High School students pursuing additional studies after graduation, several parents of Loudon's students participate in meetings of the Merrimack Valley High School Liaison Committee in order to perform in the capacity of consumer advocate. This could provide a valuable service to other local parents, and to students, in that reasons for potential attrition or lack of interest in

pursuing higher education could be identified and encouragement given to our students to further their education and marketable skills.

6. **Scholastic Aptitude Test.** The Committee noted in a June, 1984 edition of New Hampshire Sunday News, an article pertaining to 1982 results of the Scholastic Aptitude Test by New Hampshire High Schools. In that article, Merrimack Valley High School ranked below both national and state averages.

However, Superintendent Baston indicated that that particular year did not accurately reflect a trend for the High School. In 1980, 1981 and 1983, he stated, Merrimack Valley High School was comparable to the State median and above the national average.

7. **Teacher/Student Ratio.** At the inception of the Merrimack Valley School District, the student population was approximately 100 less than today. According to lists of staff provided by the District at that time, and as of 1984, it appeared there had been a sizable increase in staff, compared to the additional numbers of students.

An increase in staff of approximately 50% to accommodate the modest increase in students has not been thoroughly justified to this Committee.

8. **Building Needs Projections and Busing:** At the time the Loudon School Study Committee began analysis of data pertaining to assessments, per pupil costs, enrollments, etc., during the early spring and summer, final year end statistics for the school calendar year were not yet available. Thus, the previous year's facts and figures had to be incorporated into this report in some instances.

According to the office of the Superintendent of Schools in April, 1984, Loudon had a school population of 549 students, including those in Special Education and Readiness classes, with 165 enrolled at the High School, grades 9 - 12. Of all five communities in the School District, only Boscawen had a higher enrollment at that time. It is our understanding that at the beginning of the 1984 school year, Loudon's total enrollment exceeded that of Boscawen, with Penacook's third, Webster's fourth, and Salisbury's total enrollment fifth.

In reviewing Department of Education publications concerning enrollments, the following communities had a total school population similar to Loudon's and were supporting their own school system,

grades 1 - 12: Allenstown, Milton, Moultonboro, Newmarket, Northwood, Northumberland and Sunapee. Other self-operating Districts with only slightly higher enrollments than Loudon currently has were Colebrook, Gorham and Pittsfield.

Statistics indicate that the community of Loudon has attained one of the highest per capita growth rates of any New Hampshire community during the past ten years. With this in mind, it is entirely probable to predict that Loudon's school population will increase within the not too distant future.

At the present time, over 28% of the School District's costs are absorbed by Loudon residents, based on Net Assessed Valuation of the School District. The 1983 school tax rate per \$1,000 of equalized valuation for Loudon was \$16.11; the total 1983 property tax rate per \$1,000 equalized valuation was \$23.73. Last year Loudon's total tax rate decreased by a small percentage, due in large part to prospective appropriations being negated by townspeople at the Town Meeting and a "hold the line" budget being implemented.

However, Loudon is currently paying over \$1,000,000 into the School District, part of which is to complete the original Bond issue, the remainder contributing to operational costs.

The Loudon School Study Committee has projected estimate costs, as outlined below, should the community of Loudon decide to further explore the possibility of supporting its own school system.

The Committee has determined that additional space requirements to establish a Loudon School District would be approximately 50,000 square feet. Estimated cost recommended by the State Department of Education is \$65.00 per sq. ft., so our Committee is basing its projected costs on this figure. However, it is the Committee's consensus that modifications could be made in design factors that could conceivably result in a lower per square foot cost. This portion of the Study incorporates the usage of the Loudon Grade School, with some improvements, in addition to erecting a new building to house higher grades.

Bond Issue

\$3,250,000 - 20 years at 10%

First Year		Twentieth Year Only	
Principal	\$ 162,500	Principal	\$ 162,500
Interest	<u>325,000</u>	Interest	<u>16,250</u>
Total	\$ 487,500	Total	\$ 178,750
Less Building Aid	<u>48,750</u>	Less Building Aid	<u>48,750</u>
Total Estimated Cost - First Year.....	\$ <u>429,750</u>	Total Estimated Cost - Twentieth Year.....	\$ <u>130,000</u>

Operating Budget Estimate per Year...	\$ 1,460,300
*Less Estimated Income	<u>99,000</u>
Total to be Raised by Taxes for Operating Budget Per Year	<u>1,361,300</u>

*Only Justifiable Income Figures Used.

Additional Factors to be considered in Implementing a School System Include:

1. A determined value would have to be made of the existing cooperative district to establish the share of the equity due the Town of Loudon.
2. Use of municipal bonds which are available at 8% - 11%.
3. Currently over 50% building aid funds are available to Cooperative School Districts. Individual school districts are entitled to approximately 30% of these funds at the present time. However, the 1985 Legislature is currently reviewing the formula for providing financial assistance to school districts with the possibility of future revision.
4. Entitlement monies available to the Town, such as Aid to the Handicapped, Drivers Education, Food Service Reimbursement, etc., are not fully covered in the proposed budget.
5. Pupil Transportation. A positive factor in localized busing of children is that students, especially the very young, will not be traveling for long periods of time to and from their school. Also, busing restricted to the Loudon area would be substantially less expensive and it would be economically feasible to separate the age groups.

6. Location Availability. Approximately 20 to 27 acres is desirable in planning for the building of a new school facility. Exploration of the community by Committee members indicated several possible sites in Loudon.

It became apparent to the Committee that land in Loudon is being rapidly developed, and that in the event Loudon citizens decide to pursue the possibility of having their own school system, consideration should be given to the fact that a suitable school site may not be readily available in the future.

Items That Should be Addressed in any Future Consideration.

If the current Loudon Grade School is enlarged to include grades 5 and 6, will it be state mandated to include library and recreational facilities in that building as well as in the proposed high school?

If Loudon remains with the current School District, and it is determined that it is necessary to build a middle school, grades 5 through 8, would it be possible to build this middle school in the Town of Loudon, thus alleviating some of the pupil transportation problems for our Town, which has the largest pupil population in the District?

Is it possible to bring the 5th and 6th grades back to Loudon, if we remain in the Merrimack Valley School District? This would serve a dual purpose -- transportation as indicated above, and retention of the younger pupils within their local community. It would also be an alternative to building a middle school.

The Loudon School Study Committee has determined that the cost involved to create a Loudon School District would exceed today's current assessment, but would probably be very comparable to future assessments if a building program is initiated by the Merrimack Valley School District.

It is the conclusion of this Committee that it would be feasible for Loudon to support its own school system; that it would alleviate the amount of excess time consumed in busing its students; that it would contribute to greater community involvement and control; that it would be able to provide a curriculum specified by the State Department of Education; and that extra curricula activities and sports, although somewhat smaller in scope than at present, would also be available to students and be more locally oriented.

**1984
VITAL STATISTICS**

Since the 1977 Legislature has enacted the laws that govern access to vital records it is recommended that we do not include items of a personal and confidential nature, therefore, I have used the guidelines suggested by the Registrar of Vital Records, in the preparation of these reports.

MARY E. MAXFIELD
Town Clerk, Loudon
